THE STORY SO FAR

When Professor Calamitous steals Jimmy Neutron's plans for the 'Universe Portal Machine', the evil genius constructs his own version of the device to recruit an inter-dimensional band of baddies made up of Vlad Plasmius, Plankton, and Denzel Crocker. Collectively known as The Evil Syndicate, this fearsome-foursome combine their dastardly powers to create the diabolical Doomsday Device while unleashing an army of evil on the unsuspecting worlds of Dimmsdale, Bikini Bottom, Amity Park, and Jimmy's very own Retroville.

Brain-blasting a plan to save the day, Jimmy uses his 'Universe Portal Machine' to scour the multiverse for a little help of his own, drafting none other than Danny Phantom, Timmy Turner, and SpongeBob SquarePants. Only by working together as a team can they defeat the villainous Syndicate and destroy the dangerous Doomsday Device once and for all!

BEGINNING A NEW GAME

After the power is turned on, the corporate logos and title screen will appear. Press **START** to access the Main Menu screen. The three Main Menu choices are listed below.

- **Play Game** — Select this option to start a new game of Nicktoons: Unite! or to load a previously saved game.
- **Options** — This menu allows you to adjust sound and control settings.
- **Extras** — This menu allows you to access the extras you've unlocked during the game.

GREAT GODDARD

As you progress through the game, you'll encounter Jimmy Neutron's robotic dog, Goddard, in various locations. By interacting with Goddard, you'll be able to upgrade your weapons and abilities as well as save your current game – allowing you to resume game play at any time at the beginning of the very same level it was saved at. For more information on upgrades see page 11.

ALL 4 ONE

Nicktoons: Unite! can be played by 1-4 players. Players can join or leave the game at any time by pressing **START**. After joining a game, players can change their characters at anytime.

(Note: Players can only select characters that are not being used by other players.)

When a player leaves a multiplayer game, their NRG Tokens will be distributed among the remaining players. When the last player leaves the game, the game will exit and return to the main menu screen. In this case, any unsaved game data will be lost.

ROLL CALL

Working together as a team, Jimmy Neutron, Danny Phantom, Timmy Turner, and SpongeBob SquarePants will travel to each others' worlds where they'll battle evil enemy armies, solve brain-busting puzzles, and come face to face with all four sinister Syndicate bosses. Good luck, guys... You're gonna need it!

Jimmy Neutron

The smartest kid in Retroville, Jimmy Neutron's a certified super genius. Don't believe it? Just check out some of his latest anti-evil inventions and judge for yourself.

Tornado Blaster

Jimmy's starting weapon fires a blast of compressed air guaranteed to totally blow away the bad guys.

Shrink Ray

This incredible invention shrinks objects and stunned enemies. Looks like that's one small step for science and one giant problem for friends of the Syndicate!

Neutron Flare

Shed a little light on the situation with this glowing flare. Use it to light lamps and candles, stun enemies, and even force phased enemies to become solid.

Quarterback Gear

Hut-Hut-Strike! Jimmy's protective gear lets him charge enemies and knock them right out of the park!

Danny Phantom

Danny Fenton may look like an ordinary teenager, but when duty calls he slips into action as Danny Phantom, an extraordinary spectral superhero with a ghostly host of other-worldly powers.

Ghost Punch

Powered by ectoplasmic energy, Danny's basic attack really packs a punch.

Over Shadow

Take control of stunned enemies and use their abilities against other enemies.

Phase Shift

Danny can use this ability to avoid attacks, pass through some solid objects and jump greater distances.

Ghostly Wail

A massive burst of sonic energy that knocks enemies off their feet—perfect for shattering fragile objects.

Timmy Turner

Timmy Turner has his own secret! His Fairy God Parents, Cosmo and Wanda, grant his every wish... as long as they're within 'Da Rules'. His wishes don't always work out as planned, but he always manages to set things straight in the end.

Star Flinger

Cosmo and Wanda transform into this magical weapon, allowing Timmy to fire wish-stars at enemies.

Freeze Glove

Freeze water and objects, making them brittle and easy to break. Or put an enemy on ice and knock 'em out cold.

Giant Arm, The Boy Chin Wonder

Transform into Timmy's alter ego and use the super-strength of his Chin-tastic Arm to pick up and manipulate heavy objects.

Cosmo & Wanda's Marvelous Medicinal Remedy

Cosmo & Wanda transform into a magic medicine box that Timmy can use to heal his friends in times of need.

SpongeBob SquarePants

The number one patty maker under the sea, SpongeBob loves his job at the Krusty Krab and dreams of becoming the ocean's most renowned Fry Cook.

Foam Gloves

Behold SpongeBob's giant karate-fighting foam gloves! Slip these babies on and the bad guys'll never know what hit 'em.

Water Soak

Being a sponge sure can come in handy! Absorb water and use it to drive back enemies, fill containers, and extinguish candles and lamps.

DoodleBob Lure

Distract enemies and lure them to specific locations with a toss of this paper plane that unfolds into DoodleBob.

Bubble Bomb

With the aid of his Bubble Wand, SpongeBob can create Bubble Bombs that explode in a cloud of tiny bubbles.

THINGAMAJIGS

Be sure to keep your eyes peeled for the following Nickel-icious pickups.

NRG Tokens

These wondrous little doohickeys are made from the energy that the Syndicate is stealing from the four worlds! Luckily, our heroes can use them to upgrade their weapons and abilities in the Goddard Upgrade Menu.

(Note: NRG Tokens are awarded to the player, not the character. So, players keep the NRG Tokens they've collected even when they switch characters.)

- Orange NRG Tokens are worth 1 point
- Blue NRG Tokens are worth 10 points
- Gold NRG Tokens are worth 50 points

Health Pod

Small Health Pods restore 10% of a player's health while Large Health Pods restore a whopping 50%.

Power Pod

Like Health Pods, small Power Pods restore 10% of a player's health while Large Power Pods restore 50%.

Mega Power Pod

Whoah! A Mega Power Pod fully restores the player's Power while at the same time giving them temporary unlimited Power.

Invulnerability Pod

Temporarily provide a protective shield over the character making them invulnerable against all attacks.

Damage Boost Pod

Deliver a double dose of damage to all enemies—but only for a limited time!

UPGRADES UNITE

All of the characters' weapons and abilities have two levels of upgrades which players can spend their NRG Tokens to obtain. Some upgrades provide an additional attack for a particular weapon or ability, while others improve the functionality and effect of their basic attack.

(Note: The Upgrade Menu can only be accessed by interacting with Goddard.)

THE EVIL SYNDICATE

The villainous Professor Calamitous is closer than ever to ruling the universe. The only way to stop this diabolical genius is to defeat each of his cohorts in crime and their inter-dimensional armies of evil!

Syndicate Grunts

Henchmen for The Evil Syndicate, these small gremlin-like creatures are as troublesome as they are ugly.

Doomsday Trooper

Beware these treacherous troopers created by Professor Calamitous to maintain law and order in the new world regime.

Phase Soldier

Created by Professor Calamitous to mimic Vlad's phase ability, these sinister cyborgs move about undetected – appearing only to teleport more troops into the battle!

Plankton Popper

Used to guard doorways and passageways, these simple-minded sentries may not be fast but they're armed with long range missile weapons that can fire in up to four directions at once.

Ghosts

From Ghost Sailors in Bikini Bottom to Ghost Guards in the Ghost Prison, these other-worldly adversaries are found in all four worlds – and ready to knock the fright out of you!
